# Variphy Cloud

Visualize, search, analyze, and report on all your CUCM CDR call data

Variphy is the preferred analytics and management platform for over 1,500 public and private organizations, totaling more than 4 million phones in over 30 countries.

CUSTOMER PREMISES

COLLABORATION INFRASTRUCTURE → VARIPHY COLLECTOR → TLS ENCRYPTION → DEDICATED CLOUD NAMESPACE

Key Highlights

- Variphy Collector runs on customer premise alongside other Variphy features to automatically and securely facilitate CDR and CUCM data to Variphy Cloud.

- Variphy Cloud is powered by FedRAMP Certified Google Cloud.

- Annual subscriptions are available based on the amount of data volume and retention.

- Our solution offers the same product look, feel, and industry-leading CUCM integration as existing on-premise versions.

- Our platform pairs perfectly with Enhanced Consulting Services (ECS).

UC Data the Right Way
