Seamless, Secure, Scalable:
Choose Variphy Cloud

Flexible Solutions for Evolving Businesses

Variphy Cloud is designed to meet the demands of modern businesses, ensuring secure, cost-effective, and highly accessible solutions for your team.

- **Hybrid Work Environments:** Provide secure, seamless access to critical tools and data, whether at home or in the office.

- **Scaling Startups:** Support growing teams with a scalable infrastructure that adjusts to needs without requiring additional hardware.

- **Multi-Location Teams:** Foster collaboration across offices and remote teams with advanced, cloud-based communication tools.

- **Resource Efficiency:** Save time and resources for your IT team with a fully managed cloud solution.

FEATURE	Variphy Cloud	ON-PREMISES SOLUTION
Accessibility	Accessible from anywhere with multi-device compatibility (desktop, tablet, smartphone).	Limited to on-site or VPN-connected devices.
Hardware Requirements	No hardware required; operates via subscription-based cloud model.	Requires significant investment in physical hardware and maintenance.
Updates & Maintenance	Automatic updates with no need for user intervention or downtime.	Manual updates and routine maintenance needed.
Collaboration	Advanced features enhance team collaboration across locations.	Limited collaboration tools, often restricted to on-site.
Security	Powered by FedRAMP-certified Google Cloud, with encryption, regular audits, and automatic backups.	Security depends on internal infrastructure and policies.
Cost Structure	Subscription-based model with predictable costs and no upfront hardware expenses.	High upfront costs with ongoing operational expenses for maintenance.
Disaster Recovery	Built-in automatic backups and robust disaster recovery tools.	Depends on internal backup systems, often costly to implement and maintain.
Migration Flexibility	Supports hybrid setups and gradual migration with seamless data integration.	Migration to the cloud or other setups can be resource-intensive and complex.
